

LEARNING OBJECTIVES

After viewing the program, a student should have a better understanding of what the AIDS virus is, how it is transmitted, who is at risk and how infection can be avoided, how one can be tested for the virus. Learn how one can be tested for the virus.

DISCUSSION TOPICS/QUESTIONS

1. What is AIDS?
2. How is it transmitted?
3. Can anyone “catch” the virus?
4. Is it true that only the gay population can “catch”/transmit the disease?
5. How can a student tell if he or she is at risk?
6. Questions the student can ask him or herself: Have you shared needles or syringes to inject drugs/steroids; If you are a male, have you had sex with other males; Have you had sex with someone who you believe may have been infected with HIV; Have you had a sexually transmitted disease (STD); Have you received blood transfusions or blood products between 1978 and 1985; Have you had unprotected sex with someone who would answer yes to any of the above questions?
7. If you are infected, will you know it?
8. What does safe sex mean and how can you practice it?
9. HIV testing: positive vs. negative results.
10. Avoiding fear by being knowledgeable.

INTENDED AUDIENCE

This program is designed for use with a general school audience, grades 7 - 12.

PRESENTING THE PROGRAM

To prepare a lesson plan for the presentation of each program, review the suggested outline below:

1. Before students view the program: Collect as many recommended books as possible to help generate class interest and participation. Preview each program and become familiar with the concepts that are presented in it.
2. Students view the program: The first viewing, if possible should be uninterrupted.
3. After the first viewing: Elicit discussion of what the students have seen and heard. The next viewing will be enriched by this general discussion.
4. Second viewing: The program may be viewed again, this time with attention to detail. The teacher should feel free to stop and question students regarding: a. what is happening in a visual; b. major concepts.
5. Post activities and discussion: Discussion questions for this program may be used to stimulate further interest, reinforce concepts and evaluate student comprehension.
